

### John Deere via Volt Corp

I have been working in the ISG team at John Deere as Software engineer since Oct 2021. The client company is John Deere. The company manufactures agricultural machinery, heavy equipment, forestry machinery, diesel engines, drivetrains (axles, transmissions, gearboxes) used in heavy equipment, and lawn care equipment. In 2019, it was listed as 87th in the Fortune five hundred America's ranking. I have joined the IT department
